

VIRTUAL CAROUSEL NETWORKING

WHAT IS IT?

Carousel networking gives those in their early career first-hand experience of networking with industry professionals whilst also connecting this talent pipeline with business.

WHY NOW?

Young people have had far less opportunity to build their network and expand their horizons than generations before them. We want to provide an opportunity for them to make new connections and build their confidence.

WHO SHOULD GET INVOLVED?

If you feel you are able to be generous with your time and really make a difference, please sign up as an industry professional networker. This is an opportunity to share your skills. **All sectors, all genders and regions are welcome!**

WHO ELSE SHOULD GET INVOLVED?

If you are at the start of your career and would like to expand your network [sign up here](#).

Please do forward this on to any colleagues or friends who would like to get involved!

#NPWLive #PayItForward
